

MAN LION'S CITY 10 E.

SHORT BUS WITH LONG-TERM BENEFITS.

With a vehicle length of 10.5 metres, the all-electric MAN Lion's City 10 E is an extremely manoeuvrable all-rounder. Thanks to its record-breaking turning circle of 17.2 metres, compact dimensions and a wheelbase of only 4.4 metres, the MAN Lion's City 10 E is the ideal solution for narrow road conditions and busy pedestrian zones.

A short bus that offers you long-term benefits with regard to efficiency, flexibility and sustainability.

YOUR BENEFITS AT A GLANCE

- **Emission-free mobility** thanks to proven cell and battery technology of the latest generation
- **High operational flexibility** thanks to compact dimensions and small turning circle
- **Maximum operational reliability** thanks to high, modular battery capacity
- **Intelligent energy management** with future-proof lithium-ion technology
- **Simple and fast charging** thanks to smart depot charging concept
