

Largest order in the history of MAN TGE

Munich, 04/03/2021

International ambulance company Falck Danmark A/S has signed a master agreement with MAN Truck & Bus. This framework agreement covers running replacement of Falck's van-based functional vehicles in five European countries throughout a six year period. This can sum up to a delivery of approximately 2,500 MAN TGE vans, making MAN preferred van partner for Falck.

The Falck Group based in the Danish capital Copenhagen is an international provider of rescue services that employs a workforce of over 30,000 in 35 countries. Falck's portfolio includes emergency rescue, firefighting, patient and intensive-care transport services, ambulance operations, and mobility services. Falck has signed a comprehensive master agreement with MAN Truck & Bus that covers its ambulance and patient-transport applications.

The vehicles called up under the framework agreement may total around 2,500 MAN TGE by 2026. The modern, reliable vans can be ordered by five of Falck's national organisations in Denmark, Germany, Sweden, Spain, and the United Kingdom. MAN will supply the base vehicles, while the equipment and body of each one will be built and fitted by renowned body manufacturers to Falck's specifications. The first van orders from the master agreement have already been placed.

Thomas Herzog, Head of International Key Account Van at MAN Truck & Bus, had the following to say when asked about the reasons for this success: "Thanks to our high body-integration competence, which MAN has incidentally been putting to good use in the truck business for decades, we can guarantee seamless processing and the highest possible quality for the com-

MAN Truck & Bus is one of Europe's leading commercial vehicle manufacturers and transport solution providers, with an annual revenue of some 11 billion euros (2019). The company's product portfolio includes vans, trucks, buses/coaches and diesel and gas engines along with services related to passenger and cargo transport. MAN Truck & Bus is a company of TRATON SE and employs more than 37,000 people worldwide.

plete vehicle. Only by cooperating with body manufacturers can we safeguard our customers' success and simplify their day-to-day operations. That is our primary objective here at MAN."

For long-standing, Munich-based commercial vehicle manufacturer MAN Truck & Bus, this is the largest single order in the history of its van segment. Falck and MAN are already well acquainted. With the TGE, MAN has had a van in the segment between 3.0 and 5.5 t zGM in its range since 2016.

Back in 2019, Falck's Danish arm ordered 132 MAN TGL light trucks from MAN Lastbiler Danmark, MAN's national organisation for that country. 19 TGE vans were also among the units ordered then. In the United Kingdom, too, Falck Ambulance UK puts its faith in the MAN TGE for patient-transport services. A total of 92 TGE vans were delivered there in the past two years.
